## PROFESSIONAL SUMMARY

Detail-oriented Java Full Stack Developer with hands-on experience building responsive web applications and e-commerce platforms. Strong foundation in Data Structures, SQL, and component-based architecture with a focus on scalable and maintainable solutions.

## EDUCATION

Bachelor of Technology in Computer Science and Engineering

2023–2027

B.S. Abdur Rahman Crescent Institute of Science and Technology, Chennai

CGPA: 7.92

## TECHNICAL SKILLS

- **Programming:** Java (Core Java, OOP), JavaScript, Python, C++
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Bootstrap
- **Backend:** Java, REST API Basics, CRUD Operations
- **Database:** SQL (MySQL), Query Optimization
- **Tools:** Git, GitHub, VS Code, Android Studio, Vite
- **Core Concepts:** Data Structures & Algorithms, DBMS, Operating Systems
- **Soft Skills:** Effective Communication, Analytical Thinking, Adaptability, Team Collaboration

## EXPERIENCE

### Android Developer Intern

Jun 2025 – Jul 2025

Oasis Infobyte (Remote)

- Developed 3+ Android applications using Java and XML with responsive UI layouts.
- Optimized application performance and improved UI responsiveness.
- Followed structured development workflow and Git-based version control.

### Web Developer Intern

Jun 2025 – Jul 2025

NSP Nexus (Remote)

- Built 5+ responsive web pages using HTML, CSS, and JavaScript.
- Improved user interaction through dynamic UI components.
- Collaborated using GitHub for source code management and deployment.

### Data Scientist Intern

Jun 2024 – Aug 2024

Coincent.ai (Remote)

- Performed preprocessing on datasets containing 10,000+ records.
- Built basic machine learning models and generated data visualizations.
- Conducted exploratory data analysis to extract actionable insights.

## PROJECTS

---

### ASHZ Streetwear – Modern Fashion E-Commerce Website

- Designed and developed a premium fashion e-commerce website with 5+ dynamic pages.
- Built reusable React components improving code reusability by 40%.
- Implemented 360° rotating product showcase and fully responsive layout.
- Developed a Contact Us page with form validation and structured user input handling.
- Optimized performance using Vite and modular component architecture.
- Technologies: React.js, JavaScript, Tailwind CSS, Vite, Git.

### A<sup>3</sup> Hair Oils – Full Stack E-Commerce Platform

- Developed a full-stack e-commerce platform with authentication and protected routes.
- Implemented Google and Email login with secure session handling.
- Built product filtering, add-to-cart functionality, and category-based browsing.
- Designed a responsive Contact Us form with client-side validation.
- Structured application using Context API for centralized state management.
- Technologies: React.js, JavaScript, Tailwind CSS, Firebase Authentication, Git.

### Food Express – Online Food Ordering Website

- Developed a responsive food ordering web application with structured product listing.
- Implemented category-based filtering and dynamic UI updates using JavaScript.
- Designed reusable product card components for scalable menu expansion.
- Technologies: HTML, CSS, JavaScript, Git.

### To-Do Application

- Developed task management system supporting full CRUD operations.
- Integrated local storage ensuring 100% task persistence after refresh.
- Technologies: HTML, CSS, JavaScript.

## LANGUAGES KNOWN

---

English (Professional Proficiency), Tamil (Native), Hindi (Fluent), Urdu (Fluent)
